

MUKUND CHINNAM

Software Engineer | Backend Developer | Python & MERN Stack
mukundchinnam18@gmail.com • +91 9347248729 • Warangal, India • [LinkedIn](#) • [GitHub](#)

SUMMARY

Software Engineer with hands-on experience building scalable backend and full-stack applications using Python Flask, Node.js, React.js, and MongoDB. Currently contributing to production-grade enterprise software at SecureKloud Technologies. Skilled in REST API design, access control systems, and cloud deployment on AWS.

EXPERIENCE

Full Stack Developer Intern — SecureKloud Technologies

May 2025 – Present

Chennai, Tamil Nadu

DocuGenie.AI | Python Flask, SQL, REST APIs

- ▶ Built 12+ RESTful APIs using Python Flask serving enterprise document workflows and reducing manual processing time by 40%.
- ▶ Implemented role-based access control (RBAC) and permission layers securing document access for 5+ enterprise user roles.
- ▶ Developed backend modules for intelligent invoice and PDF processing integrated with GenAI and LLM pipelines, automating 70%+ of manual document handling.

SecureKloud Intranet Portal | MERN Stack, AWS

- ▶ Built MERN Stack modules for HR workflows including employee requests, announcements, and event management, reducing manual HR effort by 30%.
- ▶ Developed React.js components and Express.js APIs for internal HR workflows used across 5+ departments, streamlining employee operations.
- ▶ Deployed scalable MERN applications on AWS EC2 with S3-based asset storage supporting 200+ internal users.

PROJECTS

DocuGenie.AI™ | Python Flask • SQL • REST APIs • GenAI • LLMs

- ▶ Award-winning AI-native Intelligent Document Automation platform — winner of Best AI Innovation of the Year 2025 and listed on Google Cloud Marketplace.
- ▶ Used by enterprises across BFSI, logistics, healthcare, and manufacturing to automate KYC, invoices, contracts, and compliance workflows at scale.

SecureKloud Intranet Portal | React.js • Node.js • Express • MongoDB • AWS

- ▶ Internal enterprise portal for HR operations, employee request tracking, announcements, and event management across departments.
- ▶ Full-stack application deployed on AWS EC2 with S3-based asset storage supporting organization-wide HR workflows.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks: Flask, React.js, Node.js, Express.js

Databases: MongoDB, SQL

Cloud & Tools: AWS EC2, Amazon S3, Git, GitHub, REST APIs

EDUCATION

B.Tech in Computer Science & Engineering

2020 – 2024

CMR College of Engineering & Technology | Hyderabad, Telangana

Diploma in Computer Engineering

2017 – 2020

Government Polytechnic Warangal | Warangal, Telangana

CERTIFICATIONS & ACHIEVEMENTS

Certifications (HackerRank): Python (Basic) • Problem Solving (Basic) • REST API (Intermediate) • Software Engineer Intern

Achievements: Finalist — Accelathon 2.0 • Member — Institution Innovation Council (IIC)

Languages: English • Telugu • Hindi
